We aim to promote qualified development of Montemor-o-Novo municipality in particular to support actions in the social & cultural sphere, environmental conservation and enhancement of natural and human heritage, entrepreneurship and support for business creation and quality services. Environmental and heritage concerns were the roots of the creation of the MARCA ADL,

27 years ago. Today, we have legal status equivalent to NonGovernmental Environmental Organisation and Youth Organisation in Portugal.

For five years we have run the Center for Conservation

of Mediterranean Forest, which includes environmental educational activities for a very diverse public and also a plant nursery where we produce hundreds of native plants species that we are moving into a bigger space!

This project involves the partnership of 2 Portuguese organisations and other European organisations, hosting a total of 10 young volunteers, from Portugal and other European countries, preferably from rural areas.

The two main objectives of the project are:
